

SECURITY

More than any other type of institution, a hospital must convey a sense of safety and security to customers. In order to effectively support and maintain physical protection for patients, staff and visitors, Soriant evaluates your existing security procedures and risk management activities, and provides solutions for your department to maintain optimum and cost-efficient safety protocols.

The Soriant approach includes conducting a complete and thorough security program assessment. We then provide you with tracking tools, which will allow you to easily monitor the status of improvements.

WORKING TOGETHER, WE ACHIEVE BOTTOM-LINE RESULTS WITH A FOCUS IN THESE AREAS:

- IMPROVING PRODUCTIVITY AND STAFFING PATTERNS
- REDUCING OPERATING COSTS
- NEGOTIATING CONTRACTS
- REDUCING NON-CONTRACT EXPENSES
- RENEGOTIATING SERVICE CONTRACTS
- MANAGING RFP/RFI PROCESSES FOR MOVING TO NEW SERVICE PROVIDERS
- INCREASING EFFICIENCIES IN PARKING AND VALET SERVICES/RFI PROCESSES FOR MOVING TO NEW SERVICE PROVIDERS
